OpenTable's list of the 100 Most Scenic Restaurants for 2019 is generated solely from diner reviews collected between June 1, 2018 and May 31, 2019. All restaurants with a minimum "overall" score and number of qualifying reviews were included for consideration. The overall score is made up of unique data points, such as overall diner rating, user klout, total number of reviews and regional overall rating. Qualifying restaurants were then scored and sorted according to the sum of tags for which "scenic views" was selected as a special feature.

Based on this methodology, the following restaurants, listed in alphabetical order, comprise the 100 Most Scenic Restaurants in America according to OpenTable diners. The complete list may also be viewed at <https://www.opentable.com/lists/most-scenic-restaurants-us-2019>.
